

Bryn Hafren Transition Day

Recently Bryn Hafren Comprehensive School held its annual Transition Day to welcome year six girls from our feeder primary schools around the Vale. These girls had the chance to take part in various activities as many subjects from around the school offered different experiences to give a taste of what their subject had to offer. For example the girls produced their own Photogram in the Art dark room and in Design Technology they made compact mirrors and a purse to put them in. The girls also had the opportunity to see a wide range of Bryn Hafren's facilities, including the swimming pool, drama studio, fitness suite, beauty salons, climbing wall and also so much more.

The girls thoroughly enjoyed their day at Bryn Hafren Comprehensive School. Eliza from Barry Island Primary school stated that she is very excited to start school in Bryn Hafren. Ffion also stated that she couldn't think of anything that could be improved in the school. Both girls enjoyed the food technology facilities and loved making delicious rock cakes!

Many pupils of Bryn Hafren volunteered to come in on their day off and be tour guides for the new girls. They love to see their old primary teachers and show some of their friends from primary school how much they love Bryn Hafren. The tour guides helped the girls by showing them the facilities and the way around the school. They were also able to answer any questions asked by the girls.

Transition Day was followed up by the Open Evening where pupils were invited to bring their parents up to see the school. The staff were thrilled to see so many pupils but the familiar faces were not only from the Transition Day. Staff had a great evening reminiscing with former pupils and classmates. All staff and pupils are looking forward to welcoming the next generation of the Bryn Hafren family.
